
EDUCATION**Singapore Management University***Bachelor of Science, Information Systems***Singapore****Aug 2023 - Aug 2027**

- Prima Ceylon Scholarship: awarded for outstanding academic performance and exceptional contributions to extracurricular activities.
- Competitions: Top 5, LinkedIn Trailblazer 2026 | Top 10, Product Women x CMB Hackathon 2025 | OGP Her Code, Her Cause Hackathon 2026

TECHNICAL SKILLS

- Languages: Python, SQL, JavaScript, HTML/CSS | AI & GenAI: LLM integration, ML pipelines, NLP, prompt engineering, Claude, ChatGPT | Automation: Power Automate, Microsoft Copilot | Data & ERP: SAP S/4HANA, Snowflake, Salesforce, Tableau, Excel | Tools: Jira, Signavio, OutSystems
- Coursework: Financial Accounting, Management Accounting, Data Management, Business Process Analysis & Solutioning, Enterprise Solution Development, Software Project Management

EXPERIENCE**Marriott International***AI and Automation Intern, Global Design Team***Singapore****Aug 2026 - Present**

- Automates PDF data extraction into operational spreadsheets using Power Automate, replacing a fully manual data entry process and reducing administrative effort across the Global Design team.
- Builds an automated team recommendation system using Microsoft Copilot and existing organisational data and trains an LLM to perform image recognition on architectural floor maps to identify errors before finalization.

DFS Group Limited (LVMH)*Business Analyst Intern***Singapore****May 2025 - Aug 2025**

- Extracted and analysed financial and operational data across SAP S/4HANA and Snowflake using SQL, identifying discrepancies and translating findings into structured recommendations for technical and non-technical stakeholders.
- Coordinated UAT and defect tracking for an enterprise system implementation, developing SOPs and user adoption materials that enabled 80%+ of business users to operate independently post-launch.

Quantrax Corporation (Q-Excess PVT LTD)*Data Analyst / Data Operations Intern***Sri Lanka****Jul 2022 - Aug 2023**

- Validated and corrected 3,000+ records ahead of system go-live using systematic data quality checks, reducing data discrepancy rates by ~20% and ensuring accuracy for operational reporting.
- Coordinated requirements gathering and deliverable validation with internal teams and external vendors across 3 time zones, contributing to on-time delivery across 2 project milestones.

NOTABLE PROJECTS**AI-Enabled ETL System for Climate Risk Analytics (Final Year Project)****May 2026 - Present**

- Built a Python ETL pipeline using LLM and ML logic to extract, map, and validate multi-format financial instrument data (CSV, JSON, XML, Excel) for ESG and climate risk analytics, maintaining data integrity across complex multi-source inputs.
- Developed a Visualization Dashboard displaying portfolio ESG scores and climate risk metrics, translating complex model outputs into accessible formats for non-technical decision-makers.

Blockchain-Enabled Cross-Border Payment Solutions**Jan 2026 - May 2026**

- Assessed inefficiencies in cross-border trade finance for Kenyan SMEs, analysing documentation burden, settlement delays, and compliance friction to identify opportunities for digital process redesign.
- Proposed a blockchain-based trade finance solution using Polygon smart contracts and stablecoins to reduce transaction friction, ensuring transparent audit trails across payment flows.

Pilates Planner Agent (LinkedIn Trailblazer Programme 2026)**Top 5, Singapore**

- Built a complete AI agent from scratch using Chat Chat, curating structured training data and configuring a knowledge base to deliver accurate, personalised responses, finishing Top 5 in Singapore.
- Integrated the agent with external data sources via Google Apps Script, building an end-to-end AI-enabled workflow tool and debugging output quality iteratively to improve user experience.

CO-CURRICULAR ACTIVITIES**SMU Career Champions, Dato' Kho Hui Meng Career Centre***President***Singapore****Jan 2026 - Present**

- Plans and executes major career events for 150+ participants, coordinating timelines, logistics, and stakeholders across internal teams and external organisations.
- Oversees scheduling, operations, and participant data tracking using Excel and project management tools, driving consistent engagement and strong retention.
