EDUCATION

Singapore Management University

Bachelor of Science (Information Systems)

Singapore
Aug 2023 - Present

- Prima Ceylon Scholarship: awarded for outstanding academic performance and exceptional contributions to extracurricular activities.
- Competitions: Top 5, LinkedIn Trailblazer Programme 2026; Top 10, Product Women x Coffee Meets Bagel Hackathon 2025; OGP Her Code, Her Cause Hackathon 2026; L'Oreal Brandstorm 2026 Participant.

TECHNICAL SKILLS

- Languages & Tools: Python, SQL, JavaScript, HTML/CSS, SAP S/4HANA, Snowflake, Salesforce, OutSystems, Signavio, Tableau, Excel, Jira, Generative AI tools (Claude, ChatGPT)
- Coursework: Business Process Analysis & Solutioning, Enterprise Solution Development, Data Management, Software Project Management, Financial Accounting, Management Accounting

EXPERIENCE

DFS Group Limited (LVMH)

Business Analyst Intern

Singapore
May 2025 - Aug 2025

- Supported a company-wide digital transformation by coordinating ERP system design, business process analysis, UAT, and defect tracking across cross-functional teams and vendors using SAP S/4HANA.
- Analysed and validated enterprise data across SAP S/4HANA and Snowflake using SQL and Excel, resolving discrepancies across business units to ensure accuracy for reporting and decision-making.
- Built automated project tracking dashboards consolidating delivery workflows from multiple sources, reducing manual status update requests by ~30% and enabling scalable stakeholder self-service.

Quantrax Corporation (Q-Excess PVT LTD)

Data Analyst Intern

Sri Lanka
Jul 2022 - Aug 2023

- Validated and cleaned 3,000+ client records using structured data checks, reducing data discrepancy rates by ~20% ahead of system go-live for a debt recovery platform.
- Coordinated requirements gathering and deliverable validation with internal teams and external vendors across 3 time zones, contributing to on-time delivery across 2 project milestones.
- Maintained and structured client data using Excel-based tracking, improving data accessibility and supporting operational reporting across multiple client accounts.

NOTABLE PROJECTS

AI-Enabled ETL System for Climate Risk Analytics (Final Year Project)

May 2026 - Present

- Designing a scalable AI-enabled ETL pipeline using machine learning to ingest, map, and validate anonymised portfolio and derivatives data across multiple formats, automating data transformation for ESG and climate risk analytics.
- Building a dashboard displaying climate risk metrics and ESG scores by financial instrument, translating complex data outputs into accessible client-facing views for decision-making.

Inclusive Fintech & Payment Product Design

Jan 2026 - May 2026

- Conducted user research and problem-framing to analyse financial access barriers faced by migrant workers, translating customer pain points into structured requirements for a cooperative-based lending platform.
- Defined an MVP around alternative credit scoring and savings participation through cost-benefit analysis and feasibility assessment, identifying the most viable implementation approach.

Agile Product Development & Delivery Management

Aug 2025 - Dec 2025

- Managed end-to-end Agile project management across a full product lifecycle, including sprint planning, backlog grooming, and UAT coordination, applying change management practices to keep cross-functional workstreams aligned.
- Developed product roadmaps, user stories, and sprint backlogs to structure team delivery, coordinating continuous integration testing to ensure the product remained implementation-ready at each stage.

CO-CURRICULAR ACTIVITIES

SMU Career Champions, Dato' Kho Hui Meng Career Centre

President

Singapore
Jan 2026 - Present

- Led corporate outreach to secure 10+ industry professionals per event, developing targeted communications and partnership narratives across banking, consulting, and technology sectors to deliver curated career content for 150+ participants.
- Managed external-facing event communications and partner coordination, aligning internal teams and corporate partners on messaging, logistics, and community engagement goals each month.
